Министерство образования Республики Беларусь

Учреждение образования

«Брестский Государственный технический университет»

Кафедра ИИТ

Лабораторная работа №2

По дисциплине «Обработка изображений в ИС»

Тема: «Конструирование моделей на базе предобученных нейронных сетей»

Выполнил:

Студент 4 курса

Группы ИИ-21

Литвинюк Т. В.

Проверил:

Крощенко А.А.

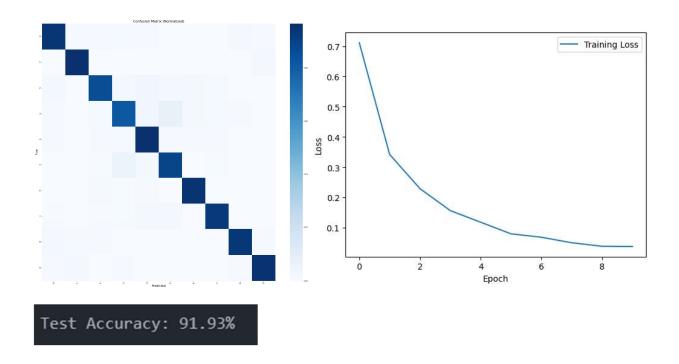

13 | CIFAR-10

Adadelta

ResNet18
